ERA Multilateration System in Western Azores

This letter confirms that ERA a.s. supplied and installed Wide-Area Multilateration system to Western part of the Azores Islands in Portugal.

Design, manufacture, installation and conducting test operation including FAT/SAT, factory and on site training, maintenance with two years warranty for the MLAT system have been performed by ERA.

ERA supplied system for Western Azores Wide-Area Multilateration comprises 6 Ground stations (3 receiving only and 3 receiving/transmitting) in the Western Azores (WA) and 3 existing Ground stations (3 receiving/transmitting) in the Central Group of Azores.

Delivery of this project was performed as agreed in the contract terms of the delivery. The Contract was signed in January 2013 and completed December 2013, with a value greater than 1,25 M EUR.

That the supplied & installed systems have performed satisfactorily after commissioning.

Lisbon, 29th July 2016

Yours sincerely

Carlos António Alves

Director of Studies and Projects
