To whom it may concern

Era Multilateration in Cairo, Egypt

This letter confirms that ERA a. s. successfully supplied and installed a multilateration system to Cairo International Airport.

The Prime contract for the delivery of A-SMGCS was signed with HITT Traffic and ERA a.s. was a subcontractor for MLAT system. The Site Acceptance Test certificate was issued on 28th March, 2012.

The MLAT system design, manufacture, installation and conducting test operation including FAT/SAT, factory and onsite training, maintenance with 12 months warranty for the multilateration system have been performed by ERA a.s.

The MLAT system ensures tracking and identification of all aircraft within Cairo International Airport movement areas and was accepted for ATC operational usage. The complete MLAT system consists of 32 sensors MLAT system and a fully redundant CPS (central processing station).

The supplied and installed system has performed satisfactorily after commissioning.

The complete system is currently after warranty and operational.

Yours sincerely,

Osama Khalil

Head of Navigation Engineering Systems Sector
