Subject – SQUID Beacons by Era

This letter confirms that Amsterdam Airport Schiphol is using more than 300 SQB 02 Vehicle Location Transmitter "SQUID Beacons" developed and manufactured by Era. We are satisfied with the operational performance of the SQUID Beacons. The product is extremely reliable under all weather conditions.

In a six month operational test with products of several manufacturers the SQB 02 of ERA was the best product for our requirements. This for the best reliability, easy to configure, best performance and accuracy.

Schiphol, May 2009

Mr. Govert Ho

**Senior Manager
Airfield Maintenance Services
