Era's Multilateration System at Singapore Changi Airport

The Civil Aviation Authority of Singapore (CAAS) held a competitive tender in 2005 for a Multilateration and Data Processing and Display System resulting in contract award to HITT N.V. with Era a.s. providing the multilateration component.

2 The Multilateration System (MSS) consists of twenty (20) receiving and ten (10) transmitting stations and two (2) monitoring transponders.

3 Following the project delivery, the MSS of Era passed Factory Acceptance Testing and has been in operational use in Singapore Changi Airport since end Dec 2007.

4 If you need any further information, please do not hesitate to contact me.

Thank you.

Yours faithfully,
